Resolution Title

Resolution Nov'26 Four

Proposed Resolution

That the VX One International Class Association resolves to:

Modify F.5.3 as outlined below to allow nominal 4mm wire in standing rigging to alleviate supply issues with 3.5mm wire in some countries. Further information is in a separate document to this resolution shows the existing wording, this proposed new wording and an articulation of Rationale/ Issues/ Pros/ Cons

Class Rule	Proposed Change
F.5.3	STANDING RIGGING WIRES Standing rigging construction shall be 1x7 stainless wire rope of 3.4mm to *4.1mm* diameter

Rationale

3.5mm 1x7 wire is not readily available in some markets; now that standing rigging other than forestay may be made by anyone, this is limiting owners in some markets.

Impact Assessment

Strategic Impact:	More readily able to keep boats on the water across all markets.
Financial Impact:	Nil for association; more affordable replacement options for boats that need standing rigging replacement in some markets; currently no plan to supply new boats this way.
Governance / Rule Change:	☐ **Yes** ☐ No
Requires Constitutional Amendment:	☐ Yes ☐ **No**
